Transmission and Distribution Losses

4497. SHRI GOPALSINH G. SOLANKI : Will the Minister of POWER be pleased to state :

(a) whether the transmission and distribution losses are on a very high side in the country in comparison to other countries ;

(b) if so, the comparative figures thereof in each State in the last three years ; year-wise ;

(c) the effective steps/measures taken or proposed to be taken by Government to minimise these losses ;

(d) whether Government have discussed this issue with the State Power Ministers so far ; and

(e) if so, the details thereof ?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI P. V. RANGAYYA NAIDU) : (a) and (b) Yes, Sir. The State-wise figures are given in Statement-I. (*See* below).

(c) In order to reduce the T&D losses, comprehensive guidelines have been issued to the power utilities. These include conducting of energy audit for identifying the system elements responsible for excessive losses, installing capacitors to improve the voltage profile, preparation of system improvement schemes for strengthening and improvement of their transmission and distribution systems, installing tamper proof meter boxes to check theft of energy and setting up vigilance squads to detect cases of theft of energy. From August, 1986, theft of energy has been made a cognizable offence under the provisions of Section 39 of India Electricity Act, 1910. An Incentive Scheme was introduced by the Government of India, among State Electricity Boards, for bringing about reduction in Transmission and Distribution losses.

(d) and (e) During the Power Minister's conference held on 8-9 January, 1993, a resolution was passed to reduce T&D losses by 1% per annum over the entire period of Eighth Plan.
